### Real-time Merchant Card Processing Engine

- Real-time Internet based capture and credit authorization process
- Real-time integration with VISA processing network
- Automated void cancellation processing

### Payment Options

- One time payments
- Recurring payment processing for collecting recurring assessments
- Accept Visa, MasterCard, Discover and e-check electronic payments

### Automated Daily Settlement Processing

- Real time posting to homeowner accounts
- Direct auto settlement to operating accounts
- No manual transaction entry
- No transfer of funds required
- Nightly settlement of all activity

### Real time reporting

- On-line Web based reporting capability
- Check status of settlement at any time

### Security

- 128 bit encryption and Secure Socket Layer (SSL) support
- Address Verification Support (AVS) requires card holder billing address
- Card Verification Services (CVS) to help reduce fraud and lower association costs of accepting credit cards

### Benefits

- Fully integrated with Complete Control for Communities. Once credit card information is entered, immediately reflected on homeowner's accounts.
- Options to add "convenience fee" to recover processing costs
